

SEPTEMBER 2026 MONTHLY REPORT

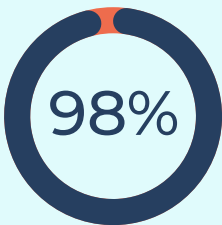

Reports by Month

3,065 reports were received in September 2026. Suicide (318), school safety concern: staff (272), and bullying (268) were the top report types.

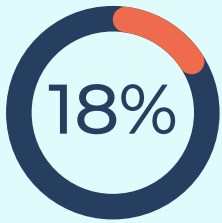

September Report Types

Valid Reports

97.9% of reports received during the 26-27 school year, which began 8/1/26, were determined to be valid. Misuse reports were 0.6%, and false reports were 1.4%

2-Way Dialogue

Percentage of reports where the reporting party sticks around to answer follow-up questions from Safe2Tell Analysts.

Key Data Points

Self Reports

224

Instances where the reporting party was making a report about themselves.

Attachments

408

Reports submitted that included an attachment or screenshot.

Report Follow-Ups

12,604

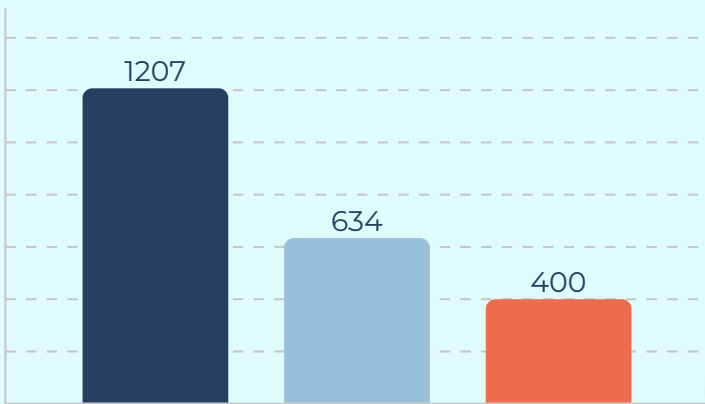

Ongoing interactions between school teams, law enforcement, and Safe2Tell analysts beyond the initial report review and investigation.

Citations/Arrests

20

Number of reports that resulted in a citation and/or arrest.

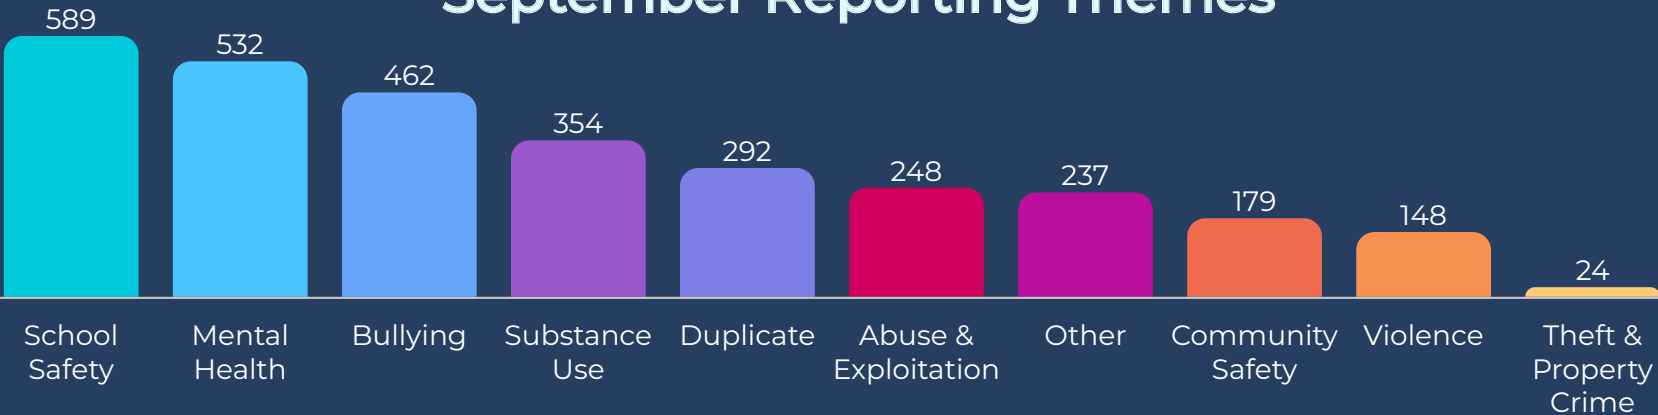

Common Outcomes

Parents Notified Counseling Welfare Check

Most common outcomes for Safe2Tell reports.

September Reporting Themes

Download our [information guide \(PDF\)](#) to learn how report types are organized into broader themes.

Report Examples

1. A person reported overhearing students saying a peer threatened to commit a school shooting and felt frightened due to the peer's past aggression. School teams and local law enforcement met with the student for a threat assessment, contacted the student's parents, provided counseling services, and implemented disciplinary actions.
2. A person reported a student expressed feeling alone and wanting to self-harm on social media. Local law enforcement conducted a welfare check and spoke with the student and parents, who scheduled an appointment with the student's counselor. The student acknowledged the social media statements but said they are not suicidal and do not want to self-harm.

The information presented in this report is based on preliminary data provided by the Colorado Information Analysis Center, which processes Safe2Tell reports, and is subject to change. A routine audit is scheduled as part of our ongoing commitment to maintaining high standards of data integrity and transparency.
