OCTOBER 2026 MONTHLY REPORT

Reports by Month

3,210 reports were received in October 2026. Suicide (326), school safety concern: staff (300), and bullying (281) were the top report types.

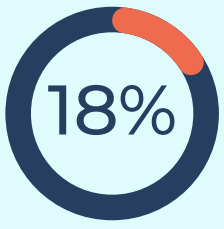

October Report Types

Valid Reports

97.9% of reports received during the 26-27 school year, which began 8/1/26, were determined to be valid. Misuse reports were 0.4%, and false reports were 1.6%.

2-Way Dialogue

Percentage of reports where the reporting party sticks around to answer follow-up questions from Safe2Tell Analysts.

Key Data Points

Self Reports

297

Instances where the reporting party was making a report about themselves.

Attachments

485

Reports submitted that included an attachment or screenshot.

Report Follow-Ups

12,627

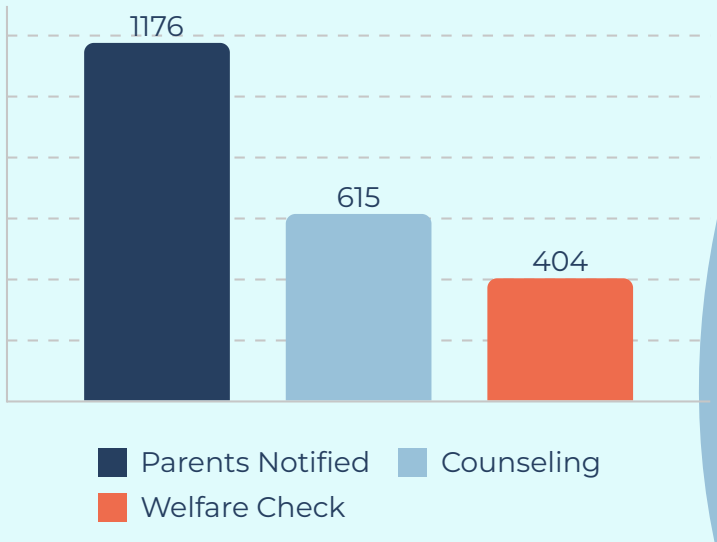

Ongoing interactions between school teams, law enforcement, and Safe2Tell analysts beyond the initial report review and investigation.

Citations/Arrests

15

Number of reports that resulted in a citation and/or arrest.

Common Outcomes

Most common outcomes for Safe2Tell reports.

October Reporting Themes

Download our information guide (PDF) to learn how report types are organized into broader themes.

Report Examples

1. A person reported that a student was depressed and self-harming after sharing a post on social media. Law enforcement conducted a welfare check and spoke with the parent, the school completed a suicide assessment, and the counselor will meet with the student weekly.
2. A person reported that a student was bullying another student and spreading rumors, causing the targeted student anxiety and reluctance to attend school. The school investigated, contacted both parents, assigned disciplinary action, and implemented a no-contact order.

The information presented in this report is based on preliminary data provided by the Colorado Information Analysis Center, which processes Safe2Tell reports, and is subject to change. A routine audit is scheduled as part of our ongoing commitment to maintaining high standards of data integrity and transparency.
